## 2016 MY RANGE ROVER SPORT PRODUCT INFORMATION WITH PRICING

## MARKETING BULLETIN

15 MAY 15 | No.: MPR15-09R | Section: PRODUCT/PRICING | Market: USA

### 2016 MY Range Rover Sport Product Summary

Jaguar Land Rover North America, LLC is pleased to announce product changes and details relating to the 2016 Range Rover Sport. The 1<sup>st</sup> Order Call for the 2016 model year is scheduled for April 20, with build commencing July 2015.

#### Changes to Previous Bulletin:

- Supercharged Dynamic V8 models: 825 Watt audio system is temporarily unavailable due to a manufacturing limitation. We understand the concern this may cause, and we are working towards a resolution. The standard 250 watt system and optional 1700 watt systems both remain available.
- Remote Start will not be available for 16MY.
- Finalized Pricing is included in this bulletin.

Updated option sheets for all items /changes are provided on the following pages.

On the final page a summary of the available port installed accessory items is included. Please be reminded the items referenced as "Preferred" will be installed at Port of Entry prior to vehicle dispatch. These items can be deselected in Vista if not required. The items listed as "Optional" can also be added for port install based on your preference but need to be selected in Vista as desired.

## **2016 Updates At-A-Glance**

### **Engines:**

- US launch of the world proven Td6 diesel engine
- Diesel Exhaust Fluid system is introduced

### **Chassis:**

- Introduction of "Auto Access Height" for the air suspension
- All-Terrain Progress Control - This is an Off-Road Crawl Cruise Control Mode

### **Interior:**

- Seat heat/cooling controls are now built into the temperature knobs
- Cooler Box is now a no charge option with certain packages
- Heated windshield is now a no charge item with certain packages
- Interior color changes
- Twin blade sunvisor for front and side use

### **Exterior:**

- Hands-Free Gesture Controlled Power Tailgate – Uses foot motion sensors under the quarter
- Color changes - some new, some discontinued
- Rear camera washer
- Infrared Reflective Glass
- Active Grille Vanes for improved aerodynamics
- Soft Door close now standard on Autobiography
- 22" Wheel option for SVR with SUMMER TIRES

### **Technology:**

- InControl Remote and Protect becomes standard
- Remote Locking and Unlocking by Smartphone
- InControl Apps becomes standard
- Improved camera resolution
- New Infotainment menu layout

### **Pricing:**

- Changes to Prices
- Diesel V6 is \$1,500 over gasoline V6
- D&D charge is now \$995

## NEW DIESEL ENGINE

**HSE Td6**

### **Td6 3.0 Turbocharged Diesel Engine**

- For the 2016 MY, the Td6 Diesel engine will be introduced for USA and Canada. Offering a combined fuel economy improvement of up to 32%, on the HSE these will be identifiable by a badge on the tailgate. The SE diesel model does not have a specific diesel badge.
- This engine produces 254HP and 440 lb/ft of Torque. It is a 3-liter 60 degree turbocharged V6, and is a thoroughly proven engine design which has been used throughout the world for over 10 years.
- To meet strict US emissions standards, this vehicle will feature a DEF (Diesel Exhaust Fluid) emissions reduction system, which is used by most modern diesel engines sold in the US. The fluid capacity is designed to coincide with routine scheduled maintenance. If needed, the fluid is readily available for purchase at retail stores and service stations. The vehicle monitors the level of DEF in the tank and the vehicle will inform the driver 1500 miles in advance if the DEF needs to be refilled. Federal regulations don't permit the engine to restart if it runs out of DEF.

## CHASSIS UPDATES

**Automatic Access Height** - For 2016, the vehicle provides Automatic Access Height with the inputs tied to the seatbelt, ignition position, gear position, and doors. It can be activated in the instrument cluster menus. Automatic Access height requires the vehicle to be in Park (P)

**All Terrain Progress Control (ATPC)** is a new off-road crawl function in cruise control. It allows the customer to set a preferred crawl speed using the cruise control, and the vehicle will modulate all systems to maintain that speed. It is available on vehicles with dual range transmission and Terrain Response. This feature will now be standard on all derivatives where Terrain Response 2 is Standard, or available as part of a Package.

## INTERIOR UPDATES

**Revised Heated Seat Controls** - The method to adjust the temperature of the heated / cooled seats has been changed. It is now accessible by pushing the temperature control knob instead of using the touch screen.

New Push function rotaries - Cabin temperature controls with new dual mode function by pushing the rotary for the heated/cooled seat feature. The rotary dial can then be adjusted to the required level (heat or cool).

**Higher Resolution Rear View Camera and Surround Camera System** - This new camera system has a higher 1.2 megapixel resolution and uses four cameras in total – one in the front, two in the

mirrors, and one in the back. Previously, there were two front cameras. The image is digitally processed to create a virtual view that appears to be above the vehicle.

**Touchscreen Menus** - Infotainment touch screen menus have been updated

**Next Generation Tire Pressure Monitor System (TPMS)** - The actual pressure of the tires can now be displayed on the dashboard service menu.

**Soft Touch Coating on interior trim replaced with Hard Coating** - We are changing interior switches / buttons / trim bezels from a soft touch coating to a hard coating for increased durability.

**Dashboard Tailgate Switch Cluster** - The improved switch cluster maintains a tailgate release and illumination dimmer, and has space for an optional Lane Departure Warning switch and/or a Deployable Side Step switch (accessory option).

**Cooler Box now a No Charge Option in Climate Comfort and Visibility Pack** - Customer feedback has indicated a desire for more center console storage. There is now a center console storage box standard within this package and the cooler box available as a no charge option. **This is now a separate line item in VISTA.**

**Heated Windshield now a No Charge Option in Climate Comfort and Visibility Pack** - This change is for customers who prefer the windshield without the heating elements. **This is now a separate line item in VISTA. PLEASE BE SURE TO SELECT THESE FEATURES AS REQUIRED.**

**InControl Technologies now available (Refer to InControl Bulletin OGI 15-24)**

- InControl apps – Smartphone interface for the in car touchscreen
- InControl Remote – Using a smartphone, you can check vehicle status, lock/unlock doors, and use remote start with cabin climate/temperature setting
- InControl Protect - Stolen Vehicle Locator, Emergency “E” Call, Roadside Assistance “B” Call
- InControl Wi-Fi Pre-wire – Hardware for future integration of in car Wi-Fi using Cellular data

**Interior Color Changes** - A New Pimento Tri-Tone will be available on Autobiography. It will include an Ebony Fascia Top, Lunar Mid Roll and Door Top Roll, Ebony Fascia Lower and Door Lower, Ebony, Pimento & Lunar Seats, and Pimento accent, with a choice of either Ebony or Cirrus headlining. Savannah is discontinued.

**Extended availability of the All Ebony Color theme** - All-Ebony color way is now available on all Range Rover Sport Derivatives.

For all derivatives except Autobiography the Ebony/Ebony will replace the Ebony/Lunar Color theme. For Autobiography the Ebony Lunar Color theme will continue alongside the Ebony/Ebony Color theme.

## **EXTERIOR UPDATE**

### **New Hands Free Tailgate with Gesture Operation -**

The powered tailgate has been enhanced with proximity sensing. This will allow the customer to operate the tailgate from outside the vehicle without needing to physically touch either the vehicle or the remote key fob. Provided that the key fob is detected, the tailgate can be operated by pointing a foot underneath the rear corners of the vehicle behind the wheel. There are two sensors mounted on either side of the tailgate. This allows curb side operation, rather than needing to be immediately behind the vehicle. The sensors are located at the sides of the rear bumper - indicated by the line on the image. The trigger area is in green.

*Example of foot movement sequence:*

**Rear Tailgate Camera Washer** - A new rear camera washer nozzle has been installed. This washer automatically will be operated every time the rear wiper washer is activated. This will provide customers with improved rear camera visibility.

**IRR (Infrared Reflective) Glass** - All North America and Canada market vehicles will have standard IRR Glass. This improves passenger comfort by reducing Infrared solar radiation. We have provided cutout “windows” in the reflective material adjacent to the rear view mirror. These spaces can be used for toll passes and also for radar/laser detectors (where legal).

**Active Vanes** - The new standard active vanes improve aerodynamics and efficiency by controlling the flow of air into the grille. Autobiography with Option 072BD (Climate comfort with 4 Zone A/C) will not have Active Vanes.

**Option of Unpainted Brake Calipers on V8 vehicles** - To better match certain color combinations, the Red V8 brake calipers are now available in a natural metal finish.

**Satin Dark Grey finish on 19" Wheels** - A new No Charge Option to create a modern and aggressive look

**16MY Wheel Code Changes** - Some wheels have changed Vista Codes. Please check the pricing sheet for any changes

<i>New Exterior Colors</i>	
<b>Zanzibar</b>	
<b>Waitomo Grey</b>	
<b>Carpathian Grey</b>	

**Discontinued Exterior Paint Colors** - Havana and Causeway Grey have been discontinued. Aleutian Silver will be discontinued after October 2015 (Week 44).

### **2016 SVR UPDATES**

- SVR branding included on the dashboard trim
- SVR logo included in the TFT instrument panel to replace the previous 'Supercharged' text
- SVR branding available as a screen saver option in the HLDF central display unit
- Yulong White will be available as a new color
- The SVR 22" wheel will now be available. Please note this wheel is equipped with SUMMER Tires. The summer tires will be Continental Conti Sport Contact 5 (295/40 R22 112Y) tires. This tire is wider and gives improved road holding, handling, and grip on asphalt.
  - **NOTE: Be sure to discuss with your customer about the performance rating of this tire as it is not rated for Mud & Snow use, and is designed specifically for summer use.**
